CAUCHY

Jurnal Matematika Murni dan Aplikasi

Volume 10, Issue 2, November 2025

A large, bold, blue stylized letter 'X' is centered on the page. The letter is composed of two thick, slightly curved strokes that intersect in the middle, creating a modern and artistic look.

CAUCHY

Jurnal Matematika Murni dan Aplikasi

Volume 10, Issue 2, November 2025

CAUCHY is a mathematical journal published twice a year on May and November by the Mathematics Department, Faculty of Science and Technology, Universitas Islam Negeri Maulana Malik Ibrahim Malang. This journal includes research papers, literature studies, analysis, and problem solving in Mathematics (Algebra, Analysis, Statistics, Computing and Applied Mathematics).

EDITORIAL BOARD

- | | |
|------------------------|---|
| Editor in Chief | : Prof. Dr. Sri Harini, M.Si , Universitas Islam Negeri Maulana Malik Ibrahim Malang, Indonesia |
| Managing Editor | : Dr. Mohammad Jamhuri, M.Si , Universitas Islam Negeri Maulana Malik Ibrahim Malang, Indonesia
Heni Widayani , Universitas Islam Negeri Maulana Malik Ibrahim Malang, Indonesia
Juhari , Universitas Islam Negeri Maulana Malik Ibrahim Malang, Indonesia
Nafie Jauhari , Universitas Islam Negeri Maulana Malik Ibrahim Malang, Indonesia
Muhammad Khudzaifah , Universitas Islam Negeri Maulana Malik Ibrahim Malang, Indonesia |
| Editorial Board | : Hari Mohan Srivastava , Department of Mathematics and Statistics, University of Victoria, Victoria, Canada
Cristina Dalfó Simó , Polytechnic School, Matemàtica, Universitat de Lleida (UdL), Spain
Kartlos J Kachiashvili , Georgian Technical University, Tbilisi, Georgia
Babangida Ibrahim BABURA , Department of Applied Mathematics, School of Sciences, Information and Communication Technology, Federal University of Technology Babura, Jigawa State, Nigeria
Prof Hadi Susanto , Department of Mathematical Sciences, University of Essex and Department of Mathematics of Khalifa University, United Kingdom
Mario Rosario Guarracino , Computational and Data Science Laboratory High Performance Computing and Networking Institute National Research Council of Italy, Italy
Kartick Chandra Mondal , Jadavpur University, Salt Lake Campus, India
Rowena Alma L. Betty , University of the Philippines Diliman, Philippines
Abdul Halim Abdullah , University of Technology Malaysia, Malaysia
Dafik Dafik , Universitas Jember, Indonesia

FOCUS AND SCOPE

CAUCHY-Jurnal Matematika Murni dan Aplikasi is a mathematical journal published twice a year in May and November by the Mathematics Department, Faculty of Science and Technology, Maulana Malik Ibrahim State Islamic University of Malang.

We welcome authors for original articles (research), review articles, interesting case reports, special articles illustrations that focus on the Mathematics Pure and Applied. Subjects suitable for publication include, but are not limited to the following fields of:

1. Actuarial
2. Algebra
3. Analysis
4. Applied
5. Computing
6. Econometrics
7. Statistics

ISSN : 2086-0382

E-ISSN : 2477-3344

Jurnal Matematika Murni dan Aplikasi

Volume 10, Issue 2, November 2025

TABLE OF CONTENTS

Clustering and Mixture Model Analysis of Human Development Index in Papua: A Study Based on Educational Data (2010–2023) -----	495–506
Identification and Modelling Tuberculosis Incidence Risk Factors in West Java with Negative Binomial Mixed Model Random Forest -----	507–518
Comparing Newton Raphson and Stochastic Gradient Descent Methods for Traffic Accident in Malang -----	519–532
Comparison of Ordinary Kriging and Cokriging for Spatial Estimation Based on Simulated Data	533–544
Estimation of Gompertz Mortality Parameter Models on Indonesian Population Mortality Table 2023 -----	545–555
Pricing Modified Barrier Options Using the Bino-Trinomial Tree Model: A Strategy for Loss Minimization -----	556–570
Modeling Risk Factors of Acute Respiratory Infections using Logistic Regression and Multivariate Adaptive Regression Splines -----	571–587
Performance Analysis of ARIMA, LSTM, and Hybrid ARIMA-LSTM in Forecasting the Composite Stock Price Index -----	588–604
Bayesian Approach in Estimating Parameters of Zero-Inflated Negative Binomial Regression Model Using Cauchy Prior: Simulation Study on Pneumonia -----	605–615
Optimizing K-Means Clustering through Distance Metric Simulation for Strategic Enrollment Segmentation in Private Universities -----	616–629
World Gold Price Prediction After United State Election Using Pulse Function Intervention Analysis	630–643
Random Forest Classification of Infant Mortality Rate in Indonesia: A Gini-Based Analysis -----	644–659
A Sinusoidal-Based Mathematical Model for Psychotherapy Effects in Bipolar Disorder Type 2 Patients -----	660–671
Dependency of The Exchange Rate with The Volume of Indonesian Aluminum Exports Using Copula	672–683
Ensemble Bagging in Binary Logistic Regression for Transportation Mode Selection-----	684–697

TABLE OF CONTENTS

Health Insurance Claim Classification using Support Vector Machine with Velocity Pausing Particle Swarm Optimization-----	698-710
Numerical Solution of the Time-Fractional Black-Scholes Equation and Its Application to European Option Pricing -----	711-721
Comparative Study of Hybrid ARIMA-LSTM and ARIMAX-LSTM for Bitcoin Forecasting with Data Partitioning -----	722-737
Systematic Literature Review: Optimal Stopping and Investment Optimization for Bankruptcy Risk Management in Sharia Insurance-----	738-763
MILP Model Solution Steps: Implementation of Big M Simplex and Branch and Bound in the Coffee Supply Chain -----	764-776
Locating Metric Coloring on The Cherry Blossom, Sun Flower and Closed Dutch Windmill Graphs	777-789
Rainfall Forecasting using Spatio-Temporal and Neural Network Study Case: Meteorological Data of Madura Island -----	790-804
Security Analysis of Modified ESRKGS-RSA Using Lenstra's Elliptic Curve Method-----	805-820
Reliable and Efficient Sentiment Analysis on IMDb with Logistic Regression-----	821-834
Optimizing Profit-to-Cost Ratios in Bakery Production Using the Hasan-Acharjee Fractional Programming Method -----	835-845
Explicit Determinant and Inverse Formulas of Skew Circulant Matrices with Alternating Fibonacci Numbers -----	846-860
Combining IoT and Time Series Model for Minute-Level Outlier Detection in Wind Speed Forecasting -----	861-874
A Hybrid Sweep-Nearest Neighbor-Tabu Search Approach for CVRP in FMCG Route Distribution	875-889
An Explainable Deep Learning Approach for Brain Tumor Detection Using MobileNet and Grad-CAM Visualization-----	890-903
Integrating Path Analysis and Kendall's Tau-based Principal Component Analysis to Identify Determinants of Child Health-----	904-915

TABLE OF CONTENTS

Identification of Earthquake Prone Zones in Sumatra using Density Based Spatial Clustering of Applications with Noise-----	916-928
Time-varying Distribution Analysis for Rainfall and Air Temperature Data in Jakarta in Response to Future Climate Change-----	929-940
Application of Propensity Score Matching for Analyzing Factors Contributing to Pre-Diabetes---	941-956
A Hybrid ARIMA-Intervention Modelling for Forest Fire Risk in The Dry Season-----	957-969
Deep-Rasch as an Alternative to Rasch Modeling under Assumption Violations and Small Sample Sizes -----	970-985
Forecasting Indonesia's Composite Stock Price Index with Semiparametric Cubic and Local Gaussian Polynomials-----	986-997
Transformation of Traditional Models to AI: SLR on the Application of Machine Learning in Mortality Prediction-----	998-1014
A Remark on Resonance and Beat in a Homogeneous Linear Delay System-----	1015-1025
An Extended Cryptanalysis of Peyrin on SIMON-JAMBU64/96: A Study on Reduced-Tuple Attacks	1026-1042
Mathematical Stability Analysis of Bullying's Impact on Student's Mental Health -----	1043-1053
Model of Three Species Commensalism-Amensalism Symbiosis with Beddington-DeAngelis Functional Responses-----	1054-1068
A Systematic Literature Review on Mean-CVaR Based Financial Asset Portfolio Weight Allocation Using K-Means Clustering -----	1069-1091
Optimal Control of Tungro Disease Spread by Considering Growth Phase and Roguing Control	1092-1105
Trace of the Adjacency Matrix of the Star Graph and Complete Bipartite Graph Raised to a Positive Integer Power -----	1106-1121
Notes on 2-Normed Spaces Through Their Quotient Spaces -----	1122-1132
Odd Harmonious Labeling of Lotus Flower Graphs -----	1133-1146

TABLE OF CONTENTS

An Integrated Circular Intuitionistic Fuzzy SWARA-TOPSIS Framework for Supplier Selection: Evidence from Pia Cap Mangkok-----	1147-1162
Function-Theoretic Operator Norm Inequalities: A Kosaki-type Generalization to Symmetric Probability Weights-----	1163-1175
Pricing Double Barrier Options with Time-Varying Interest using Standard, Antithetic, and Control Variate Monte Carlo-----	1176-1191
Analysis of Geographically Weighted Logistic Regression Models with A Bisquare Weighting Matrix on Poverty Status in West Java-----	1192-1204
Modeling Fuzzy Geographically Weighted Clustering with Flower Pollination Algorithm for Spatial Optimization and Clustering-----	1205-1218
Generalized Poisson Spatial Autoregressive Modeling of Pneumonia Cases in Children Under Five in Tuban -----	1219-1232
Nonparametric Path Modeling with Double Resampling for Waste Economic Value Utilization: Simulation-Based Performance Comparison-----	1233-1250
Optimization of Palm Oil Distribution Routes Using the Saving Matrix Approach and Genetic Algorithm on Capacitated Vehicle Routing Problem -----	1251-1265
Empirical Evaluation of Wavelet Filter and Wavelet Decomposition Level on Time Series Forecasting -----	1266-1276
Sensitivity of Bayesian Truncated Spline Regression to Prior and Knot Configuration in Stunting Models -----	1277-1292
Modified Ramsey RESET in Combined Truncated Spline-Fourier Nonparametric Path Analysis on Waste Management Behavior-----	1293-1308
Development of Multigroup Structural Equation Modeling on Structural and Measurement Models For Waste Management Behavior Patterns -----	1309-1323
Modified of Roots Finding Algorithm of High Degree Polynomials-----	1324-1348
Mathematical Modeling of the Decoy Effect to Shift Consumer Preferences in House-Type Purchases	1349-1360
